

Coronavirus and pandemic -Erikssons Åkeri AB is closely monitoring the Corona situation and we are doing everything we can to maintain deliveries

The very serious situation that now affects the entire society means that Eriksson's Åkeri AB considers this as force majeure. As long as delivery barriers occur as a result, deviations from agreements do not mean that we are in breach of the agreement. We therefore want to warn that we will probably no longer be able to fulfill all our obligations as stipulated and that deviations may occur. For example, in terms of pickup times, shipment times, delivery times and time guarantee.

We cannot currently accept new customers, but prioritize our contract customers. Access to personnel, vehicles and other restrictions are important factors. Our priorities are based on life, health and important social interests. At the same time, we do what we can to ensure that agreed deliveries and services are performed according to agreements.

We may impose additional restrictions based on the evolution of events.

Measures taken

STAFF

- Before starting work, hands must be washed thoroughly and disinfected. Disinfectants are available in our toilets and at the washbasin in the workshop.
- If you have flu symptoms, you must not work until you consult the nearest supervisor.
- Avoid taking care when you greet.
- inform you about current routines with our customers.
